## Full Stack Web Developer

*Full stack web developer with awesome Ruby on Rails and JavaScript skills, hefty product development experience and the ability to thrive in a fast-paced environment, looking to create world-class applications as part of a lean and mean team at an innovative organization.*

### Why Me?

- **Team player**, willing to do whatever it takes to help the team succeed: front end, back end and everything in between.
- **Driven, passionate** developer with a work hard, play hard mentality.
- **Full lifecycle** expertise with strong object-oriented design, test-driven development and coding skills.
- **Thrifty and resourceful**. Created high performing apps using Ruby on Rails, JQuery and Angular.
- More than year of experience with Ruby on Rails frameworks, Web application development, JavaScript, JQuery and AngularJS.

### My Experience

#### Bloc, Full-Stack Web Development Apprentice

September 2015 to present

Worked with an experienced full stack web developer to learn the fundamentals of HTML, CSS, Ruby and JavaScript.

Built test-driven web applications that utilizes RESTful API, MVC and RSpec.

Technologies included: Ruby on Rails, JavaScript, AJAX, HTML, CSS, Bootstrap, SQLite, PostgreSQL, RSpec, Heroku, Git, GitHub, Devise, SendGrid, Balsamiq.

#### Korein Tillery, Legal Assistant

2009 to present

Conducted research supporting various pending class-action litigations. Developed extensive timelines identifying key facts, market events, and other evidence and reviewed documents filed with the S.E.C., financial data from services such as Bloomberg and Reuters. Recognized for ability to balance several projects simultaneously, consistently coming in on or ahead of time, often in high-pressure situations.

### My Education

#### Master of Business Administration

SOUTHERN ILLINOIS UNIVERSITY CARBONDALE

- GPA: 3.9/4.0
- Worked on a marketing project for Carbondale Main Street, non-profit entities that help improve and promote the downtown district of Carbondale, Illinois.
- Conducted a financial analysis and forecasted future prospects of various companies as part of a mid-term and final exam.
- Nominated for membership to The Golden Key International Honour Society.

#### Bachelor of Science, Economics

THE UNIVERSITY of ILLINOIS CHICAGO

- Recipient of several Dean's Honor
- College of Business Administration
- Collegiate Finance Organization (CFO), member

### My Technical Strengths

Ruby, JavaScript, HTML, CSS and AJAX.

Databases: SQLite, PostgreSQL.

Frameworks: Ruby on Rails and JQuery

RSpec, Git, GitHub, Heroku and Bootstrap experience
